

MEADE PERFORMANCE — FIELD SPORT S&C

7 WEEKLY STRUCTURES

Built for field sport athletes.

Use the right one for your week.. every week.

2 Off Season blueprints · 5 In Season blueprints

Adjust session times to fit your schedule.

THE PROBLEM

YOU'RE PUTTING IN THE WORK. IT'S NOT SHOWING UP.

Most athletes training for field sport have the same problem. They're going to the gym. They're doing the sessions. They're working hard.

But come match day, they're fading in the second half, losing 50/50s they should be winning, and wondering why none of the gym work is transferring.

*"The issue isn't effort.
The issue is training hard
inside the wrong structure."*

Generic programmes don't account for your sport, your season, or what your body actually needs week to week. So athletes keep grinding — and keep going nowhere.

That ends here.

THE SYSTEM

THE RIGHT STRUCTURE FOR THE RIGHT WEEK.

An off season week looks nothing like a competition week. A double-fixture week demands a completely different approach to a standard one. Yet most athletes use the *same structure year-round* and wonder why their performance flatlines.

These 7 blueprints map your training to your season. Pick the one that matches your current week. The right work, at the right time.

01

OFF SEASON

Foundation Block*Post-season*

02

OFF SEASON

Strength & Power Block*January — Pre-season*

03

IN SEASON

Standard Single Game Week*Regular season, one game*

04

IN SEASON

Double Fixture Week*Two games within 7 days*

05

IN SEASON

Recovery / Deload Week*After heavy fixture period*

06

IN SEASON

Pre-Competition Week*Final week before major game*

07

IN SEASON

Back-to-Back Competition*Two competitions within 5–7 days*

Use the structure that fits your current week.

Adjust session times to suit your schedule.

OFF SEASON

01 of 02

FOUNDATION BLOCK

WHEN TO USE

Off-season : no games, no pressure. Build the base.

MONDAY	Lower Body	Squat pattern, hinge, single-leg. Lay the foundation.
TUESDAY	Upper Body	Push, pull, anti-rotation core work.
WEDNESDAY	Speed & Conditioning	Build Sprint Tolerance slowly along with Aerobic Base Build
THURSDAY	Recovery	Sauna, contrast therapy, light walk. Protect the adaptation.
FRIDAY	Full Body	2-5 Exercises for Each Lower & Upper
SATURDAY	Aerobic Conditioning	Low impact, volume based conditioning
SUNDAY	Full Rest	—

KEY PRINCIPLES

Higher volume. Lower intensity. This block is about building the physical foundation everything else sits on.
Don't rush it. Athletes who skip this phase plateau every single pre-season.

OFF SEASON

02 of 02

STRENGTH & POWER BLOCK

WHEN TO USE

End of Off Season through pre-season, foundation is built, now begin converting.

MONDAY	Speed Development	Acceleration + max velocity. Full recovery between every rep.
TUESDAY	Max Strength Lower	Heavy squats and deadlifts. 85–90% effort.
WEDNESDAY	Max Strength Upper	Pressing and pulling at high load. Quality over quantity.
THURSDAY	Recovery	Sauna, contrast therapy, light walk. Protect the adaptation.
FRIDAY	Full Body Power	Olympic lifts, plyometrics, explosive intent on every rep.
SATURDAY	Aerobic - Anaerobic Conditioning	HIIT / Tempo Based Conditioning
SUNDAY	Full Rest	—

KEY PRINCIPLES

Intensity over volume now. The foundation is built — this block is about maximising strength before the season strips it back. Push hard on gym days. Recover fully between them.

IN SEASON

01 of 05

STANDARD SINGLE GAME WEEK

WHEN TO USE *Regular season with one game on Sunday. Maintain what you've built.*

MONDAY

**Recovery / Low
Impact Upper Body**

Light movement, walking. Contrast therapy if available. Upper Body Top Up optional stick with DB Variations for lower stress.

TUESDAY

**Pre Pitch Gym (if available)
+
Speed Exposure
+
Club Training**

*Light Priming & activation in gym before going to the field.
Weekly Speed Vaccine + More Intensive Pitch Session*

WEDNESDAY

Full Body Strength

Moderate volume. This session maintains your strength gains.

THURSDAY

**Pre Pitch Gym (if available)
+
Club Training**

Lighter session. Trust your preparation.

FRIDAY

Rest

Nothing. Protect your legs.

SATURDAY

Rest / Optional Primer

15–20 min. Mobility + neural priming.

SUNDAY

Game Day

Arrive fresh. Preparation done.

KEY PRINCIPLES

Your job is to arrive at Sunday as fresh and sharp as possible. Wednesday gym maintains your strength. Saturday activates it does not tire.

IN SEASON

02 of 05

DOUBLE FIXTURE WEEK

WHEN TO USE

Two games within 7 days. Recovery is the training this week.

GAME 1	Competition	—
+1 DAY	Recovery	Contrast therapy, compression, light walk. Everything you have.
+2 DAYS	Pre Pitch Gym (if available) + Speed Exposure + Pitch Session	Skills and shape only. No conditioning output.
+3 DAYS	Low Impact Strength	L-2 Heavy Sets. SL Focus + Upper Body
+4 DAYS	Pitch Session	Low fatigue, technical / tactical practice.
+5 DAYS	Rest / Priming	15–20 min. Mobility + neural priming.
GAME 2	Competition	—
KEY PRINCIPLES		
Strength progression is not the focus here. Your only job is to recover from Game 1 and perform in Game 2. Any extra load is working against you.		

IN SEASON

03 of 05

RECOVERY / DELOAD WEEK

WHEN TO USE *After a heavy fixture period or when fatigue is accumulating.*

MONDAY

Full Rest

—

TUESDAY

Pitch Session*Reduced intensity. Communicate with management. Below 70%.*

WEDNESDAY

Deload Session*50–60% of normal loads. Movement quality only. Nothing heavy.*

THURSDAY

Club Training*Normal session — don't push beyond 80%. Be smart.*

FRIDAY

Rest

—

SATURDAY

Light Activity*Walk or mobility. 20 min maximum.*

SUNDAY

Game Day*You should feel noticeably fresher than recent weeks.*

KEY PRINCIPLES

Athletes resist deload weeks — then post their best performance the following Sunday. Reduced load is not lost fitness. It's the signal that produces adaptation.

IN SEASON

04 of 05

PRE-COMPETITION WEEK

WHEN TO USE *The week before a major competition. The work is done stay sharp, stay fresh.*

MONDAY

Full Rest*Recovery from last game. Start the week with nothing.*

TUESDAY

Pre Pitch Gym (if available)
+
Speed Exposure
+
Pitch Session

*Light Priming & activation in gym before going to the field.
Weekly Speed Vaccine + More Intensive Pitch Session*

WEDNESDAY

Full Body Strength*Light load, explosive intent. Volume drops by 30-50% to taper and allow for freshness. Stimulate the system do not fatigue it.*

THURSDAY

Pre Pitch Gym (if available)
+
Club Training

Light activation + Skills, patterns, shape. Low conditioning output at all.

FRIDAY

Rest*Walk or mobility. 20 min maximum.*

SATURDAY

Rest/Priming*15 min. Your personal pre-match primer. Own this routine.*

SUNDAY

Competition*Sharp. Fresh. Ready.*

KEY PRINCIPLES

No new fitness gains this week. That window closed two weeks ago. **Freshness wins competitions.** When in doubt — rest.

IN SEASON

05 of 05

BACK-TO-BACK COMPETITION

WHEN TO USE

A competition followed by another within 5–7 days. One goal: be ready for Game 2.

GAME 1	Competition	—
+1 DAY	Full Recovery	Ice, contrast, compression. Everything you have. This day matters most.
+2 DAYS	Pitch Session + Post Pitch Isos / Eccentrics	Rebuild Intensity Gradually. If gym on site use post pitch to fit in some isometric & eccentric strength which help reduces risk injury on intense weeks
+3 DAYS	Low Impact Gym	Mobility + Low Amp Plyos + Single Leg robustness + Upper Body Focus.
+4 DAYS	Rest or Walkthrough	Team shape only if required. Low physical output.
+5 DAYS	Rest / Primer	Your primer. Same routine as always. .
GAME 2	Competition	Everything — every decision this week — was made for this moment.

KEY PRINCIPLES

No gym. No conditioning. No extra work. Every decision this week is made in service of Game 2. This is what decided athletes do differently, they know when to push and when to protect.
